

Canadian 12-core fiber optic cable brand for smart buildings

Overview

7 Leading Canadian Manufacturers of Fiber Cable This post lists 7 manufacturers and suppliers of fibre optic cable in Canada. Take a look at Cantel Solution.

Key Takeaways

AFL, HELUKABEL, Cablek, Infinite Cables, and Techlogiks are leading Canadian providers of 12-core fiber optic cables suitable for smart building applications. Recommended Canadian Manufacturers

- AFL AFL offers a 12-core single-mode indoor/outdoor plenum-rated fiber optic cable, ideal for structured cabling in smart buildings. This cable supports high-bandwidth applications, including building automation, VoIP, CCTV, and tenant ISP uplinks, and is suitable for both riser and plenum installations .
- HELUKABEL Based in Mississauga, Ontario, HELUKABEL manufactures a wide range of optical fiber cables and accessories. Their products are designed for high-quality, reliable connectivity and comply with international standards, making them suitable for multi-tenant and commercial building backbones .
- Cablek Cablek specializes in fiber optic cable manufacturing, installation, and network connectivity solutions. They provide CSA and UL-certified cables, ensuring compliance with Canadian building codes and safety standards. Their 12-core fiber options can be customized for smart building deployments .

- Infinite Cables Located in Markham, Ontario, Infinite Cables produces customizable fiber optic cables, including 12-core configurations. Their products are designed for high-performance network infrastructure and can be tailored to meet specific building automation and high-speed data requirements .
 - Techlogiks Techlogiks offers a broad range of fiber and copper connectivity products, including 12-core fiber cables. Their solutions are ISO9001 certified and suitable for structured cabling in commercial and multi-tenant buildings, supporting both single-mode and multi-mode applications .
- Considerations for Smart Building Installations
- Fiber Type: Single-mode fiber (SMF) is preferred for long-distance, high-bandwidth backbones, while multi-mode fiber (MMF) is suitable for shorter runs within floors or between telecommunications rooms .
 - Plenum vs Riser: Plenum-rated cables are required for air-handling spaces to meet fire safety codes, while riser-rated cables are used for vertical runs between floors.
 - Scalability: Choose cables that allow for future expansion, supporting higher speeds (10G, 40G, 100G) and additional tenants.
 - Standards Compliance: Ensure cables meet CSA, UL, and ISO certifications for safety and performance.
 - Installation Support: Many Canadian manufacturers provide design, consultation, and installation services to optimize fiber backbone deployment in smart buildings .
- By selecting from these Canadian brands, building owners and integrators can ensure high-performance, reliable, and code-compliant fiber optic infrastructure for smart building applications.

7 Leading Canadian Manufacturers of Fiber Cable

This post lists 7 manufacturers and suppliers of fibre optic cable in Canada. Take a look at

Cantel Solutions

Cantel Fiber Optical Cable Network System provide the high performing, flexible, and reliable solutions needed for today's mission

12 Core Armored Fiber Duct/Aerial Cable

BlueStorm Specialized in manufacturing structured Cabling, cabinets,Fiber optic, power solutions, CCTV

VisionTek Net Connect

Your one-stop destination for all your highspeed communication network for smart cities. With our Fibre optic will make it possible to

Designing a Future-Proof Fiber Backbone for Multi

Discover how to design a future-proof fiber backbone for multi-tenant buildings. Learn about

Fibre Reference Guidelines

The purpose of these guidelines is to assist public agencies as they begin or continue to develop their fibre optic cable programs and

Fiber Optic Cables

Shop fiber optic cables at Canada Computers for superior speed, long-distance connectivity, and low signal degradation.

Fiber Optic Indoor/Outdoor Cables

This type of indoor outdoor cable eliminates the need for a “transition splice” to an indoor-rated cable when routing an outdoor cable

10 Best Fiber Optic Manufacturers for 2026

Discover the best fiber optic manufacturers globally, offering cutting-edge multimode and single mode fiber solutions.

Top Fiber Optic Cable Manufacturers in Canada

Discover all relevant Fiber Optic Cable Manufacturers in Canada, including Canadian Fiber Optics and Fibertel Communications

Top 8 Best Fiber Optic Cable Manufacturers in Canada

In the rapidly evolving telecommunications landscape, Canada stands out with its top-notch fiber optic cable

12 Core Optical Fibre Cable Singlemode buffered | Brand-Rex

Brand-Rex 12 core single mode OS2 PDC internal and external LSZH optical fibre cable. Cut to order per metre. Universal PDC

TE Connectivity
