

Enclosed Branch Cable Tray

Overview

The enclosed cable tray consists of a solid bottom, continuous sidewalls, and a removable or hinged cover that creates a protective enclosure around the cable installation. MP Husky is a founding member of the USA Cable Tray Institute and the leader in US cable tray systems and cable support systems. Whether specifying a major new project, refurbishing existing facilities or doing the engineering, procurement and construction (EPC) for your end user, with T&B Cabletray, ABB offers reliable solutions designed to conforming to ASTM A123 & ISO 1461 : m. NewReach offers Enclosed Cable Tray solutions designed to create a fully protected pathway for electrical cables. These enclosures effectively shield cables from potential physical damage, such as impact and abrasion, while minimizing the risk of accidental contact and electrical shock. This specialized infrastructure system features a fully enclosed design that.
