

Fiber Optic Cable Distribution Box Price and Model

Overview

Amazon.com: Fiber Distribution BoxETS Fiber Optic Distribution Box 4 Core – IP65 Waterproof, UV Resistant, FTTH, FTTx, Wall/Pole Mountable, Industrial Netw.

Key Takeaways

Fiber optic distribution boxes are available in indoor and outdoor models with capacities from 1 to 96 ports, offering wall, pole, or rack mounting, with prices typically ranging from \$20 to \$300 depending on configuration and features.Overview of Models

Indoor and Outdoor Options:

- Indoor boxes are usually made of powder-coated steel or ABS plastic, with lockable doors and integrated splice trays for secure fiber management .
- Outdoor boxes feature IP65-rated, UV-resistant enclosures suitable for wall, pole, strand, or pedestal mounting, with weatherproof seals and cable gland entries . Port Capacities:
- Common port options include 4, 8, 16, 24, 36, 48, and up to 96 ports, supporting SC or LC adapters and PLC splitters .
- Smaller boxes (1–8 ports) are ideal for single-building or small FTTH deployments, while larger boxes (24–96 ports) are used for multi-dwelling units or network aggregation points . Mounting Types:

- Wall-mount: Most common for indoor and outdoor installations.
 - Pole-mount: Suitable for aerial or street-level deployment.
 - Rack-mount: Used in data centers or central offices for high-density fiber management .
- Materials and Durability:
- High-impact ABS+PC plastics or powder-coated steel for mechanical protection.
 - Anti-UV, anti-aging, and weatherproof designs ensure long-term outdoor reliability .
- Pre-Terminated vs Empty Enclosures:

- Pre-terminated boxes come with factory-installed splitters and pigtails for faster deployment.
- Empty enclosures allow field customization with splice trays, adapter panels, and fiber routing guides .

Pricing

- Small indoor boxes (4-8 ports): Approximately \$20-\$50 per unit.
- Medium boxes (16-24 ports): Around \$50-\$120, depending on IP rating and splitter integration.
- Large outdoor boxes (36-96 ports): Typically \$150-\$300, with higher prices for pre-terminated or high-density configurations .
- Wholesale or volume pricing is often available directly from manufacturers like TTI Fiber or OTRANS for telecom operators and ISPs .

Additional Features

- Integrated splice trays and PLC splitter holders for organized fiber management.
 - Compliance with minimum bend radius requirements to prevent fiber damage.
 - Lockable doors and secure access for network safety.
 - Flexible cable exit designs compatible with FTTH drop cables .
- Fiber optic distribution boxes are essential for FTTH, FTTB, and FTTX networks, providing a reliable junction between backbone cables and last-mile drop fibers. Choosing the right model depends on port capacity, installation environment, and whether pre-terminated or customizable configurations are needed.
