

Fiber optic surveillance installation patch cord price

Overview

Fiber Optic Patch Cables, Fiber Patch Cords Get low-loss fiber patch cables & cords with various connector options that support fiber optic cabling up to 4.

Key Takeaways

Fiber optic patch cords for surveillance installations typically range from \$3 to \$35 per cord, depending on type, length, and connector configuration. Price Ranges by Type and Length

- Single-Mode (OS2) Patch Cords: Prices generally start around \$3.65 for short simplex cords (1-3 ft) and can go up to \$26-\$35 for longer duplex cords (10-30 meters) with LC or SC connectors .
- Multimode (OM3/OM4) Patch Cords: Short LC to LC duplex cords (1-3 ft) are available from \$5-\$7, while longer lengths (10-30 meters) range from \$14-\$42 depending on fiber grade and jacket type .
- Bulk or Multi-Packs: Purchasing in packs of 4, 6, 12, or 24 can reduce per-cord cost, with 0.5-2 meter OM3/OM4 LC/LC cords priced around \$20-\$27 per pack for 2-4 cords .

Factors Affecting Price

- Connector Type: LC, SC, ST, and APC connectors vary in cost, with APC typically slightly higher due to precision polishing.

- **Fiber Type:** Single-mode (OS2) is generally more expensive than multimode (OM3/OM4) for the same length.
- **Length:** Longer cords increase cost proportionally; custom lengths may incur additional charges.
- **Jacket and Rating:** Plenum-rated, riser-rated, or armored cables for outdoor or industrial use are priced higher due to durability and safety standards .
- **Custom or Ruggedized Options:** For outdoor surveillance installations, armored or bend-insensitive cables with duplex or multi-fiber configurations can range from \$20 to \$100+ per cord depending on specifications .

Recommended Retailers

- **Amazon:** Offers a wide range of single-mode and multimode patch cords with lengths from 1-50 meters, prices from \$3.65 to \$35 .
- **Platt Electric Supply:** Provides single-mode and multimode patch cords, including duplex and riser-rated options, with prices starting around \$3-\$15 for standard lengths .
- **Fiber Instrument Sales (FIS):** Specializes in custom fiber patch cords for indoor/outdoor and industrial applications, with pricing available upon configuration, suitable for high-performance surveillance networks .
- **Altex and trueCABLE:** Offer high-quality OM3/OM4 and OS2 cords with low insertion loss, priced from \$5-\$30 depending on length and connector type . For surveillance installations, LC to LC duplex OM3/OM4 or OS2 single-mode cords are commonly used, with typical lengths of 2-10 meters for indoor setups. Bulk purchasing or multi-packs can significantly reduce cost per cord while ensuring consistent quality and performance.
