Overview

Cable trays and busways at floor level or at slab penetrations shall have a waterstop no less than 50 mm in height. At slab penetrations, provide 20-30 mm of firestopping and install a fire-support plate at the top. They provide robust support for cables while ensuring fire safety in extreme conditions. Route. 3M Fire Barrier Moldable Putty+ is a one-part, halogen-free product designed to firestop electrical outlet boxes and a wide variety of through-penetrations including cable, conduit, insulated pipe and metal pipe, which penetrate fire-rated construction. Watch presentation of the modular Roxtec FlamePlus™ and the self-venting extension frame. · Improper Fixing of Fireproof Boards: Fireproof boards should be installed securely, but common mistakes include uneven.
