

Foreign Optical Cable Equipment

Overview

To get equipment certification for routers, applicants will need to certify that the device is not covered equipment, i.e.

Key Takeaways

Foreign optical cable equipment includes complete fiber optic cable production lines, extrusion, stranding, and sheathing machinery from international suppliers like Rosendahl Nextrom and Dongguan Gongfei.

Foreign manufacturers offer complete solutions for fiber optic cable production, covering all stages from fiber processing to finished cables. This includes:

- Loose tube and tight buffering lines for indoor and outdoor fiber cables
 - SZ-stranding machines for precise fiber twisting and low tension fluctuation
 - Extrusion and sheathing lines for protective coatings and jackets
 - Fiber coloring and jacketing systems for identification and durability
 - High-speed production lines optimized for long batches and reduced downtime
- Key Manufacturers
- Rosendahl Nextrom (Germany)
 - Provides modular, flexible production lines for all fiber types
 - Offers real-time quality monitoring with EFL systems to reduce scrap

- Equipment supports indoor, outdoor, and UV-coated fiber designs
- Thousands of lines delivered globally, many still in operation decades later
- Dongguan Gongfei / Wirecan Technology (China)
- Supplies optical cable machines, extrusion plants, SZ-stranding, sheathing, and fiber coloring equipment
- Offers technology support and after-sales service for foreign markets, including India
- Provides additional wire and cable machinery like Cat5/6 LAN cable lines, copper wire twisting, and testing devices

Additional Equipment and Services

- Testing and inspection tools for connectivity, splicing, and quality assurance (e.g., AFL Global products)
- Crosshead molds, hoppers, dryers, air wipers, laser diameter gauges, and spark testers to ensure precise manufacturing
- Technical support and training for production optimization and process improvements

Applications

Foreign optical cable equipment is suitable for:

- Indoor cables: tight-buffered, semi-tight, or micro-sheath bundles
- Outdoor cables: loose tube designs with high protection and environmental resistance
- Specialty cables: UV-coated, PA12, PE, PVC, PTFE, or FEP materials for specific industrial or telecom needs

Conclusion

Investing in foreign optical cable equipment provides access to high-quality, high-speed, and flexible production machinery with global support. Manufacturers like Rosendahl Nextrom and Dongguan Gongfei offer comprehensive solutions, including both machinery and technical expertise, enabling efficient production of a wide range of fiber optic cables for international markets .
