

## Greek Fiber Optic Hybrid Cable Multimode

### Overview

Assembled extra rugged hybrid cable with 2 multi-mode fibers and 4 x 0.75 mm 2 copper conductors, GFK strength member and aramid yarn as cable retention. This fiber has a TECS coating that acts as a second cladding with an NA of 0. These multimode fiber optic patch cables consist of circular-core step-index multimode fiber and have an FC/PC connector on one end and an SMA905 connector. Multimode Fibre Optic Cables are available at Mouser Electronics. is able to offer its customers high quality cables, certified by independent international laboratories, at competitive prices, with prompt delivery. Most suitable for powered applications in audio and. Our hybrid cables offer a diverse range of combinable cable components, encompassing copper buffered fibers, optical fibers, coaxial cables, shielded pairs, and data/control/supply lines.
