

High-Quality Corrosion-Resistant Cable Tray Manufacturer in India

Overview

They offer organized, accessible, and maintainable cabling solutions, reducing the risk of damage, overheating, and downtime.

Key Takeaways

KP Green Engineering, Rahul Steel India, Superfab Inc, Ajay Industrial, and Satyam Composites are leading manufacturers of corrosion-resistant cable trays in India. Leading Manufacturers and Their Offerings

KP Green Engineering provides a wide range of cable trays including perforated and ladder types, made from mild steel, pre-galvanized steel, and FRP (Fiberglass Reinforced Plastic). Their trays are corrosion-resistant, customizable in thickness, width, length, and side rail height, and suitable for industrial, commercial, and infrastructure projects. Rahul Steel India specializes in stainless steel (SS) cable trays for corrosion resistance, mild steel (MS) for strength, and galvanized iron (GI) for rust protection. They offer perforated, wire mesh, and trunking cable trays along with complete support systems for secure installation. Superfab Inc manufactures mild steel, stainless steel, and aluminum cable trays with powder-coated, galvanized, or hot-dip galvanized finishes for enhanced corrosion resistance. They provide perforated, ladder, and wire mesh designs, customizable to project requirements. Ajay Industrial Corporation Limited (AICL) offers ISO-certified cable trays in HR sheet, GP sheet, Galvalume, stainless steel, and aluminum. Their perforated trays provide excellent ventilation and corrosion resistance, with hot-dip galvanized, painted, or powder-coated finishes. Satyam Composites focuses on FRP and GRP cable trays, which are corrosion-resistant, fire-retardant, and UV-resistant. They offer ladder, perforated, and channel trays, ideal for harsh environments and long-term durability.

Key Features to Consider

- **Material:** Stainless steel, galvanized steel, aluminum, FRP/GRP for corrosion resistance.
- **Design:** Ladder, perforated, wire mesh, or channel trays depending on cable type and airflow requirements.
- **Customization:** Width, thickness, length, and side rail height to meet load and installation needs.
- **Compliance:** ISO certification, adherence to international safety and quality standards.
- **Applications:** Industrial plants, data centers, refineries, substations, tunnels, commercial buildings, and solar power installations. These manufacturers provide durable, corrosion-resistant, and customizable cable tray solutions suitable for a wide range of industrial and commercial applications in India.
