How much does a 48-core stranded optical cable cost

Overview

Fiber Cable, Indoor/Outdoor, Single Jacket All-Dielectric, Riser Rated, Gel-Free, Stranded Loose Tube, 48 Fiber.

Key Takeaways

The price of a 48-core stranded optical cable varies widely, typically ranging from \$0.80 to \$3.50 per foot depending on type, armor, and fiber quality. Pricing Overview

- Outdoor GYTS/GYTC8S Armored Cables
 - These cables are designed for duct, aerial, or direct burial applications with steel tape or stranded wire armor for mechanical protection and moisture resistance .
 - Prices generally range from \$1.50 to \$3.50 per foot, depending on single-mode or multimode fiber, armor type, and manufacturer .
- Indoor/Outdoor Plenum or Micro-Armor Cables
 - Ultra-thin Micro Armor Fiber™ cables are flexible, crush-resistant, and suitable for indoor/outdoor transitions, often plenum-rated for low-smoke environments .
 - These cables are typically higher priced than standard indoor distribution cables, around \$2.50 to \$3.00 per foot, reflecting their durability and versatility .
- Bulk Singlemode Fiber (Corning SMF-28®)
 - 500-foot spools of 48-strand indoor/outdoor singlemode fiber can cost approximately \$400-\$450 per spool, translating to \$0.80-\$0.90 per foot .

- These are suitable for long-distance runs and high-speed applications, with riser-rated or plenum-rated jackets for safety compliance .

Factors Affecting Price

- Fiber Type: Single-mode fibers (G.652D or G.657A1) are generally more expensive than multimode fibers.
- Armor and Jacket: Steel tape, stranded wire, or micro-armor increases cost due to enhanced protection.
- Length: Longer cable runs often reduce per-foot cost when purchased in bulk.
- Installation Environment: Indoor/outdoor, plenum-rated, or self-supporting aerial cables have higher prices due to specialized construction.

Recommendation

For budget planning, expect \$1-\$3 per foot for a 48-core stranded optical cable, with armored outdoor cables at the higher end and bulk indoor/outdoor spools at the lower end. Always confirm with suppliers for exact pricing based on length, fiber type, and delivery options.
