

How much does an Ethiopian electrical distribution box cost

Overview

Electrical Boxes & Panels in Ethiopia Floor Box 6 Module Floor boxes are a type of electrical box that is installed in the floor. They are used to provide.

Key Takeaways

Electrical distribution boxes in Ethiopia typically range from ETB 1,500 to ETB 15,000 or more, depending on type, capacity, and application. Residential and Small-Scale Distribution Boxes

For individual homes or small apartments, metering distribution boxes (such as the KMM series) are commonly used for load distribution and prepaid electricity management. Prices for these household-level boxes generally start around ETB 1,500 to ETB 5,000, depending on the brand, material quality, and whether they include built-in protection systems for safety and fair billing (Keming Electrical) .

Industrial and Commercial Distribution Boxes

Industrial-grade boxes, such as XL-21 low-voltage power distribution cabinets, are designed for factories, hotels, and large commercial facilities. These units handle multiple circuits, high-load machinery, and backup power management. Costs for industrial boxes are higher, typically ranging from ETB 8,000 to ETB 15,000 or more, reflecting their capacity, durability, and compliance with safety standards .

Outdoor and Specialized Boxes

For rural electrification, off-grid solar microgrids, or outdoor cable branch boxes (DFW-12), prices vary based on weatherproofing, load capacity, and installation requirements. These boxes are essential for safely distributing solar-generated power to homes, schools, and clinics, and their cost can range from ETB 2,000 to ETB 7,000.

Suppliers and Considerations

Reliable suppliers in Ethiopia include Bule Electrical Materials, Keming Electrical, and ConMart, which offer certified products from reputable manufacturers. Prices can vary by supplier, brand, and additional features such as smart metering, surge protection, or modular design. It is recommended to contact suppliers directly for precise quotes and to ensure compliance with Ethiopian Electric Utility standards. In summary, the cost of an electrical distribution box in Ethiopia depends on type, capacity, and intended use, with residential boxes starting around ETB 1,500 and industrial or specialized units exceeding ETB 15,000. Choosing certified products from trusted suppliers ensures safety, reliability, and long-term performance.
