

Inquiry about QSFP28 optical module 40G

Overview

The modules met the same QSFP28 LR4 optical specification, supported the same 10km single-mode fiber reach, and were coded for the same switch platform. Price: \$280 each.

Key Takeaways

Our 40G/100G SWDM4 QSFP28 multi-rate transceiver enables flexible multimode connectivity with extended reach. Supporting 440m over OM5 multimode fiber at 40G and 150m at 100G using 4 wavelengths (850/880/910/940nm), this module delivers 2. The Cisco ® 40GBASE QSFP (Quad Small Form-Factor Pluggable) portfolio offers customers a wide variety of high-density and low-power 40 Gigabit Ethernet connectivity options for data center, high-performance computing 00networks, enterprise core and distribution layers, and service provider. The Extreme Compatible 40/100GBASE-SM4 SWDM4 QSFP28 Optical Transceiver Module is designed for use in 40/100G Ethernet. In 100 Gbps mode, it supports link lengths of up to 150 meters. The modules met the same QSFP28 LR4 optical specification, supported the same 10km single-mode fiber reach, and were coded for the same switch platform. The same 400 modules would have cost \$112,000. Sandra could have stayed under budget and still had room for spares, cabling, and. Intel® Ethernet QSFP28 Optic delivers high-performing computing interconnect for deployments of 100GbE Intel® Ethernet QSFP28 Optic Overview Intel® Ethernet QSFP28 Optics are an excellent choice for fiber systems in high-speed communications equipment. LC/UPC duplex connector enables seamless. The 40G QSFP+/100G QSFP28 transceiver category offers state-of-the-art optical modules optimised for ultra-fast data transmission at 40Gbps and 100Gbps, providing unmatched scalability and efficiency for high-performance networking and data center applications. Empower your network with the.
