

Ireland Fireproof Cable Tray Supplier

Overview

Since 1982, VALDINOX has been designing and manufacturing wire mesh cable trays, supports, and easy-installation accessories.

Key Takeaways

Niedax CMS Ireland, PEMCO, and Down To Earth Electrical are key providers of fire-rated cable trays and containment systems in Ireland.

Niedax CMS Ireland

Niedax CMS Ireland is part of the global Niedax Group, one of the largest cable tray manufacturers worldwide. They offer a range of cable management systems, including fire-rated trays, ladder trays, and basket systems. Their services include expert consultation, design support, and assistance from project planning to installation. They cater to electrical contractors across all four Irish provinces and have experience in commercial, industrial, and data center projects .

PEMCO Ireland

PEMCO has over 50 years of experience in manufacturing PVC boxes, trunking, conduit, and cable containment systems. While primarily known for electrical wholesale products, PEMCO emphasizes durable, compliant, and efficient solutions suitable for fire-rated applications. They provide in-house manufacturing, expert consultation, and nationwide next-day delivery, making them a reliable choice for Irish contractors seeking fireproof cable trays .

Down To Earth Electrical (DTE)

DTE specializes in fire-rated ladder, tray, basket, and trunking systems. They offer prefabricated bracketry and QA-driven installation to ensure compliance with I.S. 10101/BS 7671 standards. Their fire-rated systems include proper fire-stopping and documentation, making them suitable for mission-critical projects such as data centers and large commercial installations .

Additional Suppliers

Electrical Wholesaler Ireland and Excel Electric distribute a variety of cable trays, including fire-rated options, though they primarily act as distributors rather than manufacturers . These suppliers can provide competitive pricing and fast delivery for standard fireproof cable trays.

Summary

For fireproof cable tray solutions in Ireland, contractors and project managers can consider:

- Niedax CMS Ireland for global expertise and full project support.
- PEMCO for in-house manufacturing and nationwide delivery.
- Down To Earth Electrical for fire-rated systems with QA-driven installation and compliance documentation.

These manufacturers and suppliers provide a combination of fire-rated products, technical support, and compliance with Irish and British standards, ensuring safe and efficient cable management for industrial, commercial, and data center projects.
