

Metal Cable Management Rack Network

Overview

A cable management rack is designed to route, protect, and organize copper and fiber cables inside network cabinets. Beyond keeping cables tidy, a well-structured cable manager reduces cable stress, improves heat dissipation, and ensures bend-radius compliance for data. This article provides a clear technical view of cable management racks, their structures, and how to select the right solution for modern networks. Pack of 10 pcs: 10 Pcs as a pack makes the freight and cost lower. Help others learn more about this product. Learn why IT Pros trust StarTech. com for performance connectivity accessories.
