

North Asia Ladder-Type Cable Tray Platform

Overview

Husky Ladder Cable Tray Systems: Cable support system constructed from two side rails connected with individual rungs.

Key Takeaways

North Asia offers a comprehensive range of ladder cable trays designed for durability, versatility, and industrial-grade cable management.

- **Materials:** Steel, stainless steel, aluminum, FRP (fiberglass reinforced plastic), epoxy-painted steel, and hot-dipped galvanized steel for corrosion resistance and long-term durability ().
- **Sizes:** Widths range from 50 mm to 900 mm, with lengths typically between 2.4 m and 3.0 m. Heights vary from 50 mm to 200 mm depending on load requirements ().
- **Construction:** Ladder cable trays feature durable steel construction with pre-punched holes for easy installation. Rounded edges enhance workplace safety, and trays can be customized to project-specific requirements ().
- **Load Capacity:** Designed to carry large power, control, data, and fiber optic cables. Strength varies according to industrial needs, supporting both light and heavy cable loads ().

- Coatings and Finishes: Options include hot-dip galvanization, bare galvanized, epoxy paint, and corrosion-resistant coatings to suit harsh environments such as power plants, data centers, and offshore platforms ().

Applications

- Industrial: Power stations, oil refineries, aluminum smelters, coal loaders, petrochemical plants, and grain terminals ().
- Commercial: Large commercial buildings, data centers, and infrastructure projects requiring organized cable routing ().
- Special Environments: Corrosive or high-moisture areas, where FRP or stainless steel trays provide enhanced protection ().

Accessories and Fittings

- Fittings: Elbows, tees, reducers, vertical risers, joint connectors, and covers are available to accommodate complex routing ().
- Customization: Trays can be cut to size, expanded, or modified for future cable additions, ensuring flexibility for evolving projects ().
- Safety and Standards: Compliant with ANSI/NFPA 70, NEMA VE 1-2017, ASTM A123, and ISO 1461 standards, ensuring safe and reliable cable management ().

Supplier Options

- Brilltech Engineers: Offers a wide range of ladder cable trays and PVC cable trays in Asia, with customizable options and export services ().
- NK Synergy: Provides perforated, ladder, wire mesh, and FRP trays suitable for industrial and commercial applications ().
- CTL Asia: Supplies complete cable support systems including ladders, wireways, and adjustable brackets for heavy-duty installations (). North Asia ladder cable trays provide a robust, versatile, and standards-compliant solution for managing electrical, control, and data cables across industrial and commercial projects, with a full range of sizes, materials, and fittings to meet diverse requirements.
