

Norwegian galvanized cable trays available now

Overview

We deliver custom-made cable trays to meet the needs of your project, ensuring easy installation and reliable support for your cables. Cable trays are a type of cable management system used to support and organize electrical cables and wires in commercial, industrial, and residential settings. They are typically made of metal, such as steel or aluminum, and are designed to provide a safe and efficient way to route and protect. Cable trays for industrial and marine use. Includes distribution trays, cable routes and NATO-type models. Request a quote directly via our webshop. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore.
