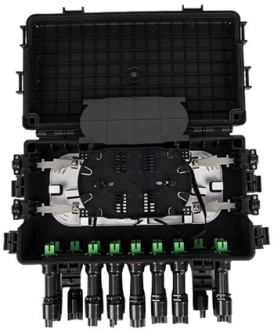
Optical Transmission Box Indonesian Brand



Overview

PAZ OTB 24 Core has got the Quality Assurance Test certificate from IDeC PT. Telekomunikasi Indonesia Tbk.

Key Takeaways

PAZ and Janjora are prominent Indonesian brands offering high-quality optical transmission boxes for fiber optic networks.PAZ Optical Terminal Box

PAZ offers the OTB12, a 12-core optical terminal box designed for flexible installation with a sliding rack system. It is grey in color and certified by IDeC PT. Telekomunikasi Indonesia Tbk, ensuring quality assurance for telecom applications . PAZ OTBs are suitable for indoor and outdoor use and are designed to simplify fiber optic cable management and termination.

Janjora Optical Distribution Products

Janjora is a leading Indonesian manufacturer specializing in ODN (Optical Distribution Network) products, including fiber optic splice closures, distribution boxes, and termination boxes. The company operates a 100,000-level dust-proof workshop and produces over 1,000 optical devices daily. Janjora emphasizes independent innovation and quality control, offering a wide range of ODN products for FTTH projects. Their optical terminal boxes are widely used by domestic and international telecom operators .

Indonesian OTBs from these brands can be purchased through online marketplaces like Tokopedia, which lists various types, capacities, and materials of optical terminal boxes. Buyers can compare prices, read reviews, and choose products suitable for their network requirements .

Key Features to Consider
• Core capacity: Commonly 8, 12, or 16 cores depending on network needs.

• Material: High-strength ABS or plastic for durability and weather resistance.

• Mounting options: Wall-mounted or pole-mounted for indoor/outdoor deployment.

• Certifications: Look for quality assurance from recognized Indonesian telecom authorities.

• Accessories: Some boxes include sliding racks, splice trays, adapters, and heat shrink sleeves for easier installation. Both PAZ and Janjora have established reputations in Indonesia for reliable optical transmission boxes, making them suitable choices for FTTH and other fiber optic network installations.
