

Ordering galvanized cable trays from manufacturers

Overview

Cable Trays | EAE USA Heavy duty cable trays and cable ladders are manufactured from pre-galvanized, electro-galvanized, or hot-dipped galvanized sheet metal.

Key Takeaways

Galvanized cable trays can be sourced directly from verified manufacturers offering bulk supply, custom sizes, and industrial-grade corrosion-resistant options.

Several manufacturers and suppliers provide direct factory supply of galvanized cable trays suitable for industrial, commercial, and infrastructure projects:

- DirectIndustry lists multiple brands such as CARPEL, INTERFLEX, and VALDINOX, offering galvanized steel cable trays in various types including ladder, perforated, and wire mesh, with thicknesses typically ranging from 1.5 mm and above .
- GlobalLinker connects buyers to verified manufacturers and exporters providing hot-dip galvanized, pre-galvanized, and powder-coated trays. These trays are available in perforated, ladder, and solid-bottom designs, with widths from 50 mm to 600 mm and thicknesses from 1.2 mm to 3 mm, supporting high load capacities and long-term corrosion resistance .

- Spina Group (Italy) manufactures galvanized and stainless steel cable trays, including closed, perforated, ladder, and wire-mesh types. They offer custom sizes and compatibility with Unistrut systems, ensuring compliance with European (EN) and international standards .
- Eurostrut provides hot-dip galvanized steel trays suitable for indoor and outdoor applications, emphasizing fast installation, durability, and flexible configurations for industrial and marine use .

Key Features to Consider

When sourcing directly from manufacturers, consider the following:

- **Material and Finish:** Hot-dip galvanized steel offers superior corrosion resistance for outdoor or harsh environments, while pre-galvanized steel is suitable for indoor applications .
- **Tray Types:** Ladder trays support heavy cable loads, perforated trays allow ventilation and drainage, and solid-bottom trays protect sensitive cables .
- **Dimensions and Load Capacity:** Manufacturers provide modular sections (typically 2.5–3 meters) with customizable widths, heights, and thicknesses to meet project-specific requirements .
- **Compliance:** Ensure trays meet standards such as IEC 61537 or IS 14927 for safety, durability, and compatibility .
- **Accessories:** Bends, tees, reducers, covers, and coupler plates are available for seamless installation and structured cable routing .

How to Procure

- Contact manufacturers directly via their B2B platforms or official websites to request factory quotes, technical specifications, and bulk pricing .
- Specify your project requirements, including tray type, dimensions, load capacity, and finish, to receive customized solutions.
- Many suppliers offer prompt delivery, technical support, and after-sales service, ensuring reliable installation and long-term performance . By sourcing directly from these manufacturers, you can secure high-quality galvanized cable trays tailored to your project needs, with the benefits of durability, corrosion resistance, and compliance with industry standards.

Cable Trays | EAE USA

Heavy duty cable trays and cable ladders are manufactured from pre-galvanized, electro-galvanized, or hot-dipped galvanized sheet

Cable Tray Systems

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable,

Cable Trays Manufacturers and Suppliers in the USA and Canada

Custom manufacturer of building cable trays made from carbon steel and stainless steel materials. Capabilities

Cable Management | Explore the best solution here at Siltec

Cable Management - Wire Tray - Electrical Cable Tray - Ladder Trays. Simple and flexible cabling with cable trays from SILTEC.

Cable Tray and Reels | Wire and Cable Management

Fast installation with dependable support. Everything you need to build a cable management system, including Cablofil wire mesh

Cable Trays Manufacturers and Suppliers in the USA and Canada

Custom manufacturer of cable trays made from aluminum, fiberglass reinforced plastic (FRP), galvanized and

Interflex USA

Our Cable and Wire Tray Systems, including wire basket, wire mesh, and sheet steel cable tray, stand out as epitomes of innovation

GI Cable Tray Manufacturers | Hot Dip Galvanized Iron Trays

Leading manufacturers of high-quality GI cable trays. Our hot-dip galvanized iron solutions offer superior rust resistance for industrial

Steel Cable Tray

Steel Cable Tray systems are Certified CSA Cable Tray, UL listed, and NEMA certified and are available in the following material

Wire Mesh Cable Tray Solutions • PFLITSCH

Wire-tray Trunking is predestined for all applications requiring open, orderly cable routing and/or where exceptional hygienic design

US Tray

Atkore's US Tray was established in 2012, as an American manufacturer of made-to-order cable trays that are built per NEMA

Cable Tray Manufacturer in India | Industrial Cable Trays

Get Industrial cable trays manufactured in perforated and ladder types with galvanized finish, custom sizes,

Integrated Steel Company » Cable Tray System

Establishing itself as the manufacturer, supplier, and exporter of a wide range of products, our offerings include electrical cable trays,

Amrock

Types of Galvanized Cable Trays We Supply Perforated GI Cable Tray The most widely used cable tray type in buildings and

Cable Trays | McMaster-Carr

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.
