

Papua New Guinea Connector Communication Optical Cable

Overview

The 4700 km Coral Sea Cable System is a 40Tbps submarine fibre optic cable that brings next-generation connectivity to the people of Papua New Guinea and Solomon Islands. It directly connects Port Moresby in PNG and Honiara in the Solomon Islands to the global internet hub of Sydney Australia. The project also includes a Solomon Islands Domestic Network (SIDN), a 730 km submarine. Market Forecast By Platform (Civil, Military, Space), By Application (Avionics, Navigation, Weapon Systems, Communication Systems), By Type (Single-mode, Multi-mode) And Competitive Landscape How does 6Wresearch market report help businesses in making strategic decisions?

6Wresearch actively. PNG DataCo, a subsidiary of Kumul Consolidated Holdings, operates the NTN, which spans over 12,000 km of fibre cable. This network facilitates both domestic and international connectivity, significantly improving access across the nation.
