

Price of Chilean Steel Ladder Cable Trays

From standard **1U** to **8U** sizes to
fully customized **Non-standard** enclosures.

Overview

Ladder Cable Trays | McMaster-Carr Choose from our selection of ladder cable trays, including cable and hose trays, heavy duty open cable and hose carriers.

Key Takeaways

Chilean color steel ladder cable trays are typically priced based on material, finish, and length, with hot-dip galvanized and powder-coated options ranging from \$20 to \$60 per meter depending on specifications.

Overview of Ladder Cable Trays

Ladder cable trays are designed to support and organize electrical cables in industrial, commercial, and marine environments. They are available in steel, stainless steel, aluminum, and fiberglass, with finishes such as hot-dip galvanized (HDG), powder-coated, or color steel to resist corrosion and enhance durability . Standard lengths are usually 2.4 meters, 3 meters, or 6 meters, with a variety of fittings including tees, bends, risers, and reducers for flexible installation .

Typical Price Ranges

- Hot-dip galvanized steel ladder trays: Approximately \$20–\$40 per meter for standard industrial sizes .
- Powder-coated or color steel trays: Slightly higher, around \$30–\$60 per meter, depending on coating quality and load capacity .
- Stainless steel (304L/316L): Premium option, typically \$50–\$100 per meter, suitable for marine or corrosive environments .

- Aluminum trays: Lightweight and corrosion-resistant, generally \$35-\$70 per meter . Fittings such as elbows, tees, reducers, and covers are priced per piece, usually ranging from \$5 to \$25 each, depending on size and material .

Supplier Options

- China-based manufacturers: Offer factory-direct pricing and OEM customization, including color steel finishes, with volume discounts available .
- Global distributors: Platforms like Alibaba provide a wide range of ladder cable trays with CE certification, HDG finish, and 10-year guarantees .
- Local sourcing in Chile: While specific Chilean suppliers are not listed in the web results, international suppliers often ship to Chile, and local electrical distributors may provide color steel options with installation support.

Considerations for Procurement

- Load capacity and tray width: Ensure the tray supports the weight and number of cables required.
- Environmental conditions: For outdoor or corrosive environments, choose HDG, stainless steel, or powder-coated trays.
- Compliance and certification: Look for IEC, NEMA, or DNV-GL certifications for safety and quality assurance .
- Bulk orders: Request quotes for large quantities to benefit from volume discounts and shipping cost reductions. For precise pricing in Chile, it is recommended to contact local distributors or international suppliers with your specifications, including tray length, width, load capacity, and color finish, to obtain tailored quotes.
