

Price of Distribution Box Backplate Bracket

Overview

Enclosure Backplates & Panels | Subpanels, Gland Plates & Barriers Explore enclosure backplates and panels including subpanels, gland plates, barrier panels.

Key Takeaways

The price of a distribution box backplate bracket varies widely depending on material, size, and supplier, typically ranging from \$10 to \$100 or more. Factors Affecting Price

The cost of a backplate bracket depends on several factors:

- **Material:** Common materials include painted steel, galvanized steel, stainless steel, aluminum, and composite materials. Stainless steel and aluminum tend to be more expensive due to durability and corrosion resistance .
- **Size and Compatibility:** Brackets designed for larger enclosures or specific mounting patterns (e.g., DIN rail compatibility) may cost more .
- **Supplier and Brand:** Leading brands like ABB, Legrand, Siemens, and Rittal often charge a premium for quality and reliability .
- **Additional Features:** Pre-drilled or perforated panels, removable subpanels, or specialized gland plates can increase the price .

Where to Purchase

- **RS Components:** Offers back box accessories from brands like ABB, Legrand, and Siemens with free next-day delivery in some regions .

- Rittal: Provides mounting plates and partial installation plates for enclosures, suitable for creating additional mounting surfaces .
 - McMaster-Carr: Stocks electrical enclosure back plates, including perforated and solid panels, with same-day or next-day delivery .
 - AliExpress: Offers IO shield back plates and brackets, often at lower prices with worldwide shipping, though quality may vary .
 - RSP Supply: Specializes in enclosure backplates, subpanels, and gland plates for industrial control enclosures, with a wide range of materials and sizes .
- Recommendation

To get an accurate price, check the supplier websites for the specific size, material, and mounting type you need. For example, a small painted steel backplate bracket may cost around \$10-\$20, while a large stainless steel bracket for industrial enclosures could exceed \$80-\$100. Comparing multiple suppliers ensures the best balance of price, quality, and delivery options.
