

Price of fiber optic cable pigtail box

Overview

Get the best deals on Fiber Optic Pigtail and find everything you'll need to improve your home office setup at eBay .

Key Takeaways

Fiber optic pigtail boxes typically range from \$30 to \$100 depending on capacity, connector type, and included accessories.

Fiber optic pigtail boxes, also known as terminal or splice boxes, are used to securely terminate, splice, and manage fiber optic cables while protecting them from environmental damage and physical stress . Prices vary based on factors such as the number of ports, type of connectors (SC, LC, FC, ST), indoor or outdoor suitability, and whether the box includes pre-installed pigtails or spools . For example, a 6-port wall-mount fiber enclosure with SC single-mode pigtails is available on Amazon for around \$50-\$70. This kit includes color-coded pigtails, a durable enclosure, and accessories for easy installation, making it suitable for data centers, LAN/WAN networks, and FTTX deployments . Larger boxes with higher port counts or additional features like waterproof or dustproof housing can cost \$80-\$100 or more . When selecting a pigtail box, consider:

- Connector type compatibility (SC, LC, FC, ST)
- Number of fibers/ports required for current and future expansion
- Indoor vs. outdoor installation (weatherproof or UV-resistant housing)

- Included accessories such as spools, adapters, or mounting brackets For bulk purchases or specialized configurations, suppliers like Fiberinthebox and Alibaba offer a wide range of options, and prices may vary depending on fiber type (single-mode vs. multimode) and quantity . Choosing the right pigtail box ensures efficient cable management, signal integrity, and long-term network reliability while keeping costs reasonable.
