

Price of installing a distribution box in masonry wall

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. This article breaks down typical price ranges and driving factors to help homeowners and contractors budget effectively. These boxes keep your wiring safe from damage and make sure your setup meets building codes. If you're planning any electrical work, one of the small but important items on your list will be the junction box.
