JEWELBLU OPTICAL SYSTEMS

Price of mesh cable trays manufactured in Singapore

Overview

Browse our range of electrical cable management trays of all sizes & types in Singapore. Buy wire mesh trays, steel trays & more.

Key Takeaways

Prefabricated mesh cable trays in Singapore typically range from SGD 20 to SGD 80 per meter, depending on material, size, and supplier.Price Factors
• Material:
• Steel: Strong and durable, commonly used in industrial settings; generally mid-range in price.

• Aluminium: Lightweight and corrosion-resistant, slightly higher cost due to material properties.

• Stainless Steel (304L/316L): Highly corrosion-resistant, suitable for harsh environments, often the most expensive option .

• Tray Type and Size:
• Standard wire mesh trays are priced lower than specialized systems with patented quick-fix or modular designs, such as OBO Bettermann's GR-Magic® or Legrand Cablofil trays .

• Width, depth, and load capacity affect cost; larger trays or those supporting heavier cable bundles are more expensive .

• Supplier and Brand:
• Local suppliers like Foresight Metal Engineering, Ferrotech, and RS Components offer a range of prefabricated mesh trays with varying prices and customization options .

• Premium brands with patented systems or quick-install features may cost more but reduce installation time and labor costs .

Typical Price Range
• Basic steel wire mesh trays: SGD 20–35 per meter

• Aluminium or coated trays: SGD 35–55 per meter

• Stainless steel or premium modular systems: SGD 55–80 per meter
Additional Considerations
• Accessories: Brackets, hangers, and connectors may add 10–20% to the total cost.

• Installation: Prefabricated systems with tool-less assembly reduce labor costs.

• Compliance: Ensure trays meet local standards (IEC, NEC, or Singapore regulations) for safety and durability . For precise pricing, it is recommended to contact suppliers directly with your project specifications, as costs vary with tray dimensions, material, and quantity.
