

Small busbar system brands

Overview

Choose from our selection of bus bars, including over 650 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

For small busbar applications, top recommended brands include Panduit, Littelfuse, Chatsworth Products, Legrand, Hager, Mersen, and Tuling. Key Recommended Brands

- Panduit – Offers grounding and modular busbars suitable for small-scale electrical panels and industrial control systems, emphasizing safe and organized power distribution .
- Littelfuse, Inc. – Known for compact busbar solutions with high current capacity, ideal for control panels and low-voltage applications .
- Chatsworth Products (CPI) – Provides busbars for small enclosures and IT racks, focusing on modularity and ease of installation .
- Legrand – Offers resin-encapsulated and insulated busbar trunking systems, including the POLYBAR line, suitable for commercial and industrial small-scale setups .
- Hager – Specializes in insulated busbars for energy distribution in residential and commercial installations, with a focus on safety and efficiency .
- Mersen – Provides laminated and powder-coated busbars, including smart monitoring solutions for battery packs and compact power systems .

- Tuling – China-based manufacturer of high-precision laminated busbars, offering multi-layer designs and customizable insulation options for small and medium applications .

Considerations for Small Busbar Selection

- Material: Copper is preferred for high conductivity and low loss; aluminum is lighter and cost-effective.
- Insulation: For compact installations, insulated or resin-encapsulated busbars improve safety and reduce short-circuit risk.
- Customization: Brands like Tuling and Mersen offer tailored lengths, hole patterns, and multi-layer designs for small-scale projects.
- Application: Choose based on whether the busbar is for industrial control panels, EV/HEV systems, renewable energy setups, or residential distribution. These brands are recognized for quality, reliability, and flexibility, making them suitable for small busbar applications where space, safety, and efficiency are critical.
