

Tajikistan s Latest AI Server

Overview

The headline development was an agreement between Perplexity AI, Epsilon3. ai, and the Ministry of Industry and New Technologies of Tajikistan to launch the Comet AI Browser, described as the world's first agent-based AI browser tailored specifically for the public sector. Tajikistan has announced plans to integrate AI into government operations for the first time, aiming to support data-driven decision-making across public administration. The announcement was made at the AI CONF conference in Dushanbe, one of Central Asia's largest forums focused on AI. The initiative is part of Tajikistan's national AI development strategy. On October 2, 2024, in the city of Doha of the State of Qatar an official delegation of the Republic of Tajikistan, chaired by the Minister of Economic Development and Trade, Zavqizoda Zavqi Amin, took part and spoke at the Asian Cooperation Dialogue Forum under the Theme: "Artificial Intelligence. Darya. ai Ltd, Tajikistan's leader in sustainable AI infrastructure, and Yotta Data Services, India's leading sovereign AI, hyperscale data center, cloud infrastructure, and platform services provider, announced the signing of a strategic collaboration agreement on October 25, 2025.
