

UAE Two-Core Drop Optical Cable

Overview

2 core ftth drop cable price in Dubai UAE. 2 core ftth Instant Technology offer Etisalat and Du approved 2Core FTTH Drop Cables in UAE. Instant Technology.

Key Takeaways

Two-core drop optical cables in the UAE are primarily used for FTTH applications, featuring single-mode fibers, LSZH jackets, and FRP strength members for easy installation and durability. Cable Specifications and Construction

Two-core drop cables, commonly used for Fibre To The Home (FTTH), are designed with two single-mode optical fibers. These fibers are typically 250 μm in diameter and are protected by dielectric strength members made of fiber-reinforced plastic (FRP), which provide mechanical strength and prevent stress during installation. The outer jacket is usually LSZH (Low Smoke Zero Halogen), making the cable safe for indoor use and resistant to fire hazards. The flat or low-profile design allows the cable to be lightweight, flexible, and suitable for tight corners or bends.

Applications

Two-core drop cables are ideal for connecting the Main Distribution Frame (MDF) to consolidation points in homes, apartments, or offices. They are compatible with industry-standard connectors, allowing for direct termination without specialized tools. These cables are widely used in residential and commercial FTTH deployments due to their compact size and ease of installation.

Suppliers and Availability in UAE

Several suppliers provide two-core drop optical cables in the UAE:

- Norden Communication offers G657 A2 two-core flat drop cables suitable for FTTH, emphasizing lightweight construction and easy installation .
- Instant Technology supplies Etisalat and Du approved 2-core FTTH drop cables in Dubai, ensuring quality and fast delivery .
- Opterna provides flat drop indoor cables with color-coded fibers, LSZH jackets, and standard 1 km lengths, suitable for tight installations .
- Arabian Fiber Optic Cable Manufacturing LLC (AFOC) manufactures high-quality fiber optic cables in the UAE, supporting large-scale infrastructure and enterprise networks .

Purchasing Options

Two-core drop cables can be purchased through local distributors, specialized suppliers, or online platforms such as Amazon.ae, which offers a variety of fiber optic cables with fast delivery and cash-on-delivery options .

Key Considerations

When selecting a two-core drop optical cable in the UAE, consider:

- Fiber type: Single-mode (G657 A2) for long-distance FTTH applications.
 - Jacket material: LSZH for indoor safety.
 - Strength members: FRP for mechanical protection.
 - Compatibility: Ensure connectors match standard 250 μm fiber size.
 - Installation environment: Indoor vs. outdoor, tight bends, and length requirements.
- These cables are lightweight, durable, and designed for easy deployment, making them a reliable choice for modern fiber optic networks in residential and commercial settings .
