Tips for Choosing a Supplier

- **Project Scale:** For large commercial or industrial projects, wholesale distributors like Platt, Gordon, or CED are preferable due to their extensive inventory and technical support.
- **Delivery and Pickup:** Check if the supplier offers delivery to your location in Canada or convenient local pickup.
- **Product Range:** Ensure the supplier carries the specific type of distribution box you need (e.g., indoor, outdoor, NEMA-rated, or panelboards).
- **Support Services:** Some distributors provide technical guidance, installation advice, and project management assistance, which can be valuable for complex installations. By considering these options, you can access a wide selection of electrical distribution boxes in Canada, from basic residential enclosures to industrial-grade panels.
