

Wholesale price of corrugated duct fiber optic IP54

Overview

Smooth, Corrugated, Split Wall Fiber Innerducts & CouplingsPVC indoor riser rated, PVDF indoor plenum rated, HDPE OSP outdoor rated innerducts & couplings.

Key Takeaways

Wholesale prices for corrugated fiber optic ducts with IP54 protection vary widely, typically requiring direct quotes from manufacturers or distributors.Pricing Overview

Corrugated fiber optic ducts are available from multiple manufacturers in China, India, and Korea, with wholesale pricing dependent on material (PVC, HDPE, PVDF), diameter, wall type (smooth, corrugated, split), and reel length . IP54-rated ducts, which provide protection against dust and water splashes, are generally priced higher than standard indoor ducts due to additional sealing and material requirements. Typical wholesale pricing is negotiated per reel or per meter, and bulk orders often receive discounts.

Product Specifications

- Sizes: Common diameters include 1", 1-1/4", 1-1/2", and 2" to accommodate various fiber cable diameters .
- Materials: PVC, HDPE, and PVDF are used for indoor, plenum, and outdoor applications .

- **Design:** Corrugated ducts are flexible, lightweight, and provide excellent crush resistance. Internal corrugations reduce friction and protect fiber cables during installation .

- **Reel Lengths:** Standard lengths range from 250 ft coils to 5000 ft reels, with sequential footage markings for easy measurement .

- **Certifications:** Many ducts meet UL 2024, UL 910, NEC Article 770, and cUL standards, ensuring compliance for riser, plenum, or general-purpose applications .

How to Obtain Wholesale Pricing

- **Contact Suppliers Directly:** Platforms like Alibaba, Made-in-China, and Global Sources list verified manufacturers offering bulk pricing .

- **Request Quotes:** Provide specifications such as diameter, material, IP rating, reel length, and quantity to receive tailored pricing.

- **Compare Multiple Suppliers:** Prices can vary significantly depending on brand, material quality, and shipping options.

- **Consider OEM Options:** Some manufacturers offer custom colors, pre-installed pull tape, or slit ducts, which may affect pricing .

Practical Tips

- For IP54-rated ducts, confirm water and dust protection compliance with the supplier.

- Factor in shipping costs for bulk orders, especially for international suppliers.

- Ask about lead times and availability of pre-installed pull tape to reduce installation costs. By following these steps, you can secure competitive wholesale pricing for corrugated fiber optic ducts suitable for IP54 applications while ensuring compliance and quality.
